The above is an estimate based on our visual inspection. It does not cover any additional parts or labor that may be required after the vehicle repairs have been started and a tear down has been completed. Occasionally after repairs have been started damaged parts are discovered. These parts and/or damages would have been impossible for us to foresee on our original inspection. Also, part prices may be increased by the manufacturer that are beyond our control. Manufacturer prices could change on a daily basis and are not guaranteed.
